Summary

Data Analyst with hands-on experience in real-time operations (VKYC), MIS reporting, and business intelligence. Skilled in Python, SQL, Excel, and Power BI to analyze large datasets, build dashboards, and improve decision-making. Proven ability to transform raw data into actionable insights and optimize business processes.

Technical skills

Programming Languages: Python, SQL
Databases: MySQL
Data Visualization: Power BI, Tableau
Data Manipulation & Analysis: Microsoft Excel, Power Query, NumPy, Pandas, Matplotlib, Seaborn
Tools & Platforms: Jupyter Notebook, Google Colab, Kaggle
Core Expertise: End-to-End Data Analytics & Business Intelligence — Data Extraction, ETL, EDA, Data Cleaning & Transformation, Data Modeling, Visualization, Insight Storytelling, Reporting & Dashboard Automation

Work Experience

MIS Executive (Data Analytics & Reporting) December – Present
Indybus Bangalore, Karnataka

- Collected, cleaned, and transformed large datasets using Excel, SQL, and Python, improving data accuracy
- Built interactive Power BI dashboards to track KPIs and enable real-time decision-making
- Automated recurring reports using Excel & SQL, reducing manual effort by 30%+
- Performed trend analysis and root cause analysis to identify business inefficiencies
- Wrote optimized SQL queries (JOINS, aggregations) to extract actionable insights for stakeholders

Founder of Coding Karo January 2026 – Present
Part-time(Youtube) Bangalore, Karnataka

- Teach concepts related to Data Analytics and programming, including Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, SQL, Power BI, Tableau, and Excel
- Create practical, real-world tutorials to simplify complex technical topics
- Focus on data analysis, visualization, and machine learning fundamentals
- Develop skills in content creation, technical explanation, and audience engagement

KYC Analyst (VKYC Operations) July 2024 – August 2025
PhonePe Bangalore, Karnataka

- Conducted 50+ daily Video KYC (VKYC) verifications, ensuring compliance with KYC/AML regulations
- Performed customer due diligence (CDD) and verified identity documents with high accuracy
- Generated daily, weekly, and monthly reports to track verification performance and audit metrics
- Identified and escalated fraudulent and suspicious cases, strengthening risk control processes
- Built Excel / Power BI dashboards to monitor VKYC KPIs and operational efficiency
- Performed data cleaning and preprocessing on verification datasets to improve reporting accuracy

Data Analytics Course January 2024 – June 2024
Besant Technologies Bangalore, Karnataka

- Completed Data Analyst training focused on Python, SQL, Power BI, Tableau, and Excel.
- Gained hands-on experience in data analysis, visualization, and reporting.
- Built interactive dashboards and performed EDA on real-world datasets.
- Utilized Pandas, NumPy, Matplotlib, and Seaborn to extract insights and visualize trends.

Projects

Zomato Sales Dashboard | Power BI 

- Built an interactive dashboard to analyze sales performance, revenue trends, top-selling products, and regional performance for business insights.
- Cleaned and transformed 50,000+ rows of sales data using Power Query, resolving missing values, duplicates, and formatting issues.
- Created DAX measures for revenue metrics and trend comparison to support data-driven decisions.
- Delivered key insights on customer behavior and high-performing regions to improve sales strategy.
- **Tools & Skills:** Power BI, Power Query, DAX, Excel, Data Cleaning, Data Visualization

Netflix Performance Dashboard | Power BI

- Built an interactive dashboard to analyze content performance, genre popularity, and regional audience trends.
- Cleaned and preprocessed 30,000+ rows of content data using Power Query, fixing missing values and formatting issues for reliable analysis.
- Created visualizations to track top-performing titles, release patterns, and engagement metrics to support content strategy decisions.
- Delivered actionable insights to improve content planning and audience targeting.
- **Tools & Skills:** Power BI, Power Query, DAX, Excel, Data Cleaning, Data Visualization

Video Game Release Exploratory Data Analysis (EDA) | Python

- Conducted EDA to identify sales trends, genre popularity, and platform performance for business insights.
- Cleaned and processed 50,000+ rows of data, handling missing values, duplicates, and outliers to improve data reliability.
- Created visualizations to analyze regional sales distribution, release patterns, and user rating trends for decision support.
- **Tools & Skills:** Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook

Weather Data – Exploratory Data Analysis (EDA) | Python

- Analyzed weather data to identify temperature, humidity, rainfall patterns, and seasonal trends.
- Cleaned and processed 40,000+ rows of climate data, handling missing values and outliers for accurate analysis.
- Created visualizations and heatmaps to explore regional and time-based climate variations.
- **Tools & Skills:** Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook

Education

Bachelor of Engineering(CSE)

Lingaraj Appa Engineering College

August 2019 – June 2023

Bidar, Karnataka

Pre-University Course (Science)

Holy Faith PUC Science college

June 2017 – March 2019

Bidar, Karnataka

Secondary School Leaving Certificate (SSLC)

Holy Faith High School

June 2016 – June 2017

Bidar, Karnataka

Courses & Certifications

- Python (LinkedIn, Great Learning, Cursa)
- Machine learning (Simplylearn, cursa)
- Excel (Great Learning)
- Tableau (LinkedIn, cursa)
- Python libraries (Simplylearn, Great Learning, Cursa)
- SQL (LinkedIn)
- Power BI (Great Learning, cursa)

Career Skills

— Decision making • Active listening • Motivation • Critical thinking • Collaboration • Teamwork • Leadership

Interests

- Learning new technologies
- Actively involved in workshops and certification programs

KEY STRENGTHS

- Data-driven decision making
- Analytical thinking & problem-solving
- Business understanding & KPI tracking
- Strong communication & reporting skills
